Project Name	Auto Ticket Classification using Flow Designer
Maximum Marks	

Project Overview:

Project Name: Auto Ticket Classification using Flow Designer

Project Description: We built a no-code solution in ServiceNow Flow Designer. It reads the Short description of a new school IT ticket, sets the Category and Subcategory by keyword, and sends a confirmation email to the caller.

Project Version: 1.0

Testing Period: _____ to _____

Testing Scope:

Features: ticket creation, Auto Number, dependent Category and Subcategory, auto classification (Wi-Fi, Projector, Forgot Password, Slow Computer), email notification.

Requirements: FR-1 to FR-6 and USN-1 to USN-20 (see the Solution Requirements and User Stories documents).

Testing Environment:

URL/Location: ServiceNow instance (add the link here)

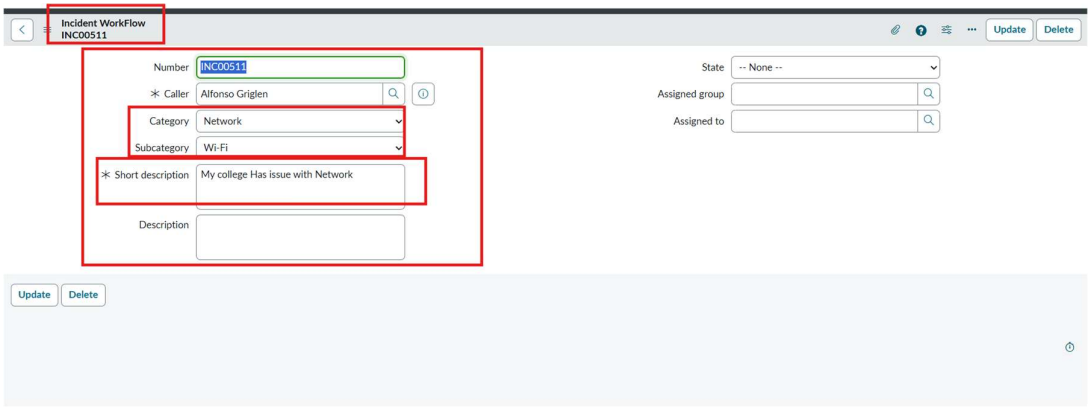

Credentials (if required): Not written here. Share them only inside the team.

Test Cases:

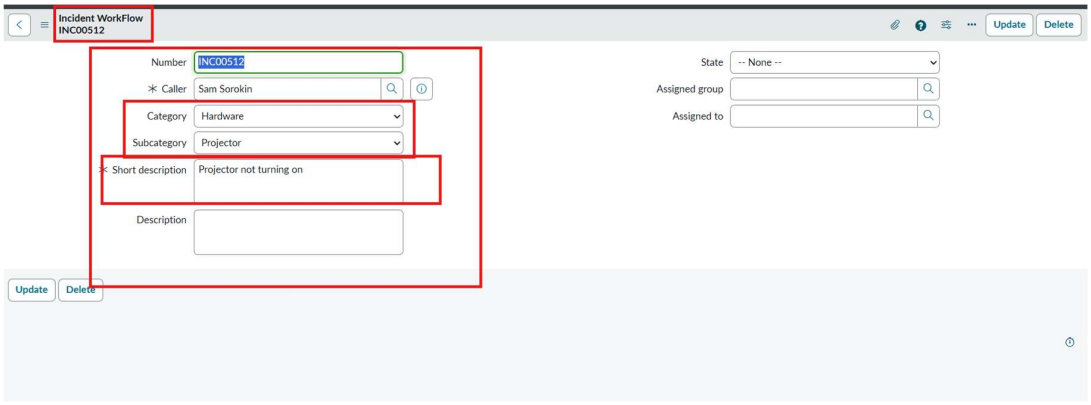

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	Wi-Fi / Network ticket is classified	1. Open a new record in Incident WorkFlow 2. Enter a Caller and the Short description "My college has issue with Network" 3. Submit, then open the ticket again	Category = Network Subcategory = Wi-Fi	Category = Network, Subcategory = Wi-Fi (ticket INC00511)	Pass
TC-002	Projector ticket is classified	1. Open a new record in Incident WorkFlow 2. Enter a Caller and the Short description "Projector not turning on" 3. Submit, then open the ticket again	Category = Hardware Subcategory = Projector	Category = Hardware, Subcategory = Projector (ticket INC00512)	Pass
TC-003	Email is sent to the caller	1. Go to All > System Logs > Emails 2. Search the subject "Your Request	An email with the confirmation	Email record found. Preview shows the confirmation	Pass

		for the issue has been submitted" 3. Open the record and click Preview Email	message is found	message	
TC-004	Subcategory depends on Category	1. Open a new record 2. Choose Category = Network, open the Subcategory list 3. Choose Category = Hardware, open the Subcategory list	Network shows Wi-Fi Hardware shows Projector	Network shows Wi-Fi. Hardware shows Projector	Pass
TC-005	Auto Number is made for each ticket	1. Create two tickets one after the other 2. Check the Number field	Each ticket has its own number	Tickets got INC00511 and INC00512	Pass
TC-006	Forgot password ticket is classified	1. Open a new record 2. Enter a Caller and the Short description "Forgot password" 3. Submit, then open the ticket again	Category = Access Subcategory = Forgot Password	Add result	
TC-007	Slow computer ticket is classified	1. Open a new record 2. Enter a Caller and the Short description "Slow computer" 3. Submit, then open the ticket again	Category = Performance Subcategory = Slow Computer	Add result	
TC-008	Required fields (negative test)	1. Open a new record 2. Leave Caller empty and click Submit	An error is shown and the ticket is not saved	Add result	
TC-009	No keyword in the Short description (negative test)	1. Open a new record 2. Enter a Caller and the Short description "Printer not working" 3. Submit, then open the ticket again	No rule matches, so Category and Subcategory stay empty	Add result	

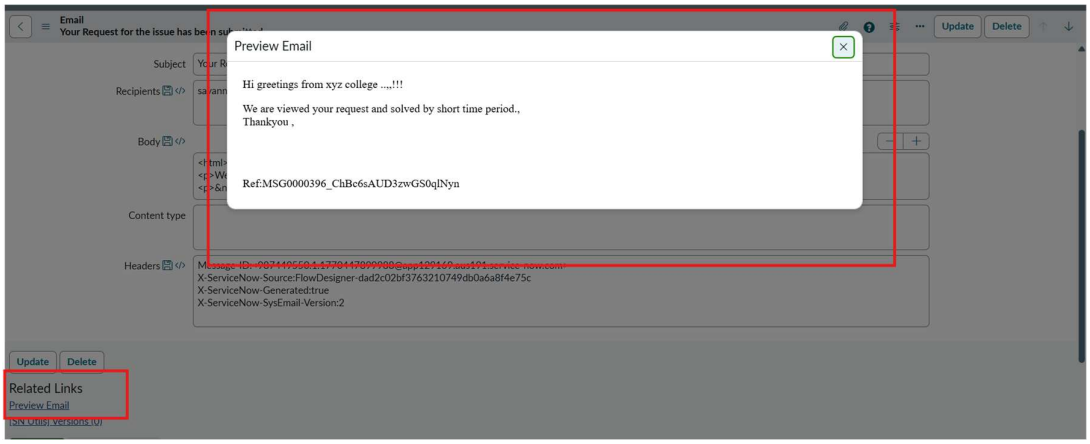

Test Evidence (screenshots):

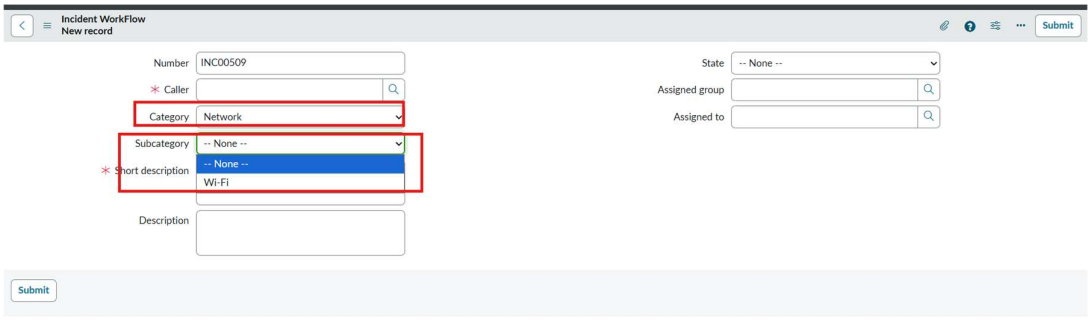

TC-001: Network / Wi-Fi ticket classified automatically

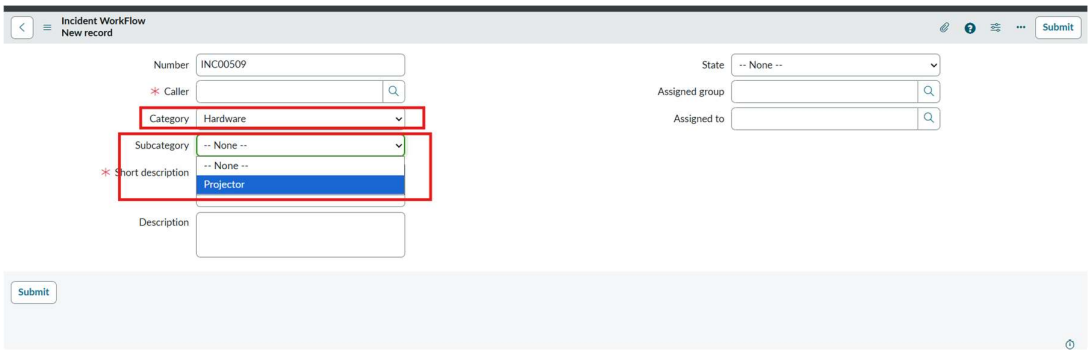

TC-002: Hardware / Projector ticket classified automatically

TC-003: Preview of the email sent to the caller

TC-004: Category = Network shows only Wi-Fi in Subcategory

TC-004: Category = Hardware shows only Projector in Subcategory

Yellow cells are tests we still need to run and fill in.

Bug Tracking:

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	No bug recorded so far. Add a bug here if a test fails.	-	-	-	-

Notes:

- Ensure that all test cases cover both positive and negative scenarios.
- Encourage testers to provide detailed feedback, including any suggestions for improvement.
- Bug tracking should include details such as severity, status, and steps to reproduce.
- Obtain sign-off from both the project manager and product owner before proceeding with deployment.
